Fax: 705-337-4091

Website: <http://www.senhosp.ca>

The Sensenbrenner Hospital is currently looking for a Locum General Surgeon from **April 23 - 28 inclusively** in Kapuskasing. Candidates **MUST** be Independent CPSO-certified. This is an opportunity to practice true Community General Surgery, with an expanding range of cases. C-section experience is an asset but not absolutely required. The presence of a full time Internist on-site, as well as involvement with the Virtual Critical Care (VCC) program in Sudbury, allows for the care of patients with some comorbidities, through more complex medical patients are referred.

Kapusasing is a true northern Ontario community, with ample options for year-round outdoor recreation in a beautiful setting. With a large francophone community, French language ability is an asset but not necessary.

Accommodations, transportation and stipend is paid as per the Northern Specialist Locum Program. For more information on remuneration please contact Nicole Hachez at [senhosp.ca](http://www.senhosp.ca)
